

OUR LIST

Rabun County Contractors and Other Great Services

Provided by
HomeCheck, LLC

January 2024
Edition

Our family purchased a home in Rabun County that needed repairs/changes/additions. Being new to the area, other than the commercial stores, we simply didn't know who to call. One day, I stumbled across "The Official Rabun County Bulletin Board" on Facebook. This group proved to be a wealth of information as it was full of local people working in the area providing services. As we moved through our journey of remodeling our home, I started writing down names and numbers of local services that I could use for my needs. At the time, I didn't think anything of it because it was just a simple list. One day, after sharing my list within the Facebook group, the reaction was simply amazing because as it turns out, many amazing people wanted to be on this list to bring opportunity to the services that they provided. I was happy to be the vessel that presented the information from "the people" to help them be more visible/successful. It was at that time that I started referring to "my list" as "OUR LIST." Through group effort, "OUR LIST" has emerged as a new tool to help the community. "OUR LIST" has been generated for anyone looking for information on local construction contractors/services in Rabun County and surrounding areas. These services are listed in order of discovery and in no reflection of performance or reputation. If you'd like to offer your services, please call 678-693-2102 and we'll happily add you to the list!
